CERTIFICATE

of On-Line Course Completion

Jaime Garcia

Has successfully completed a SunCam Continuing Education Course:

Railroads - An Introduction

By Randy S. Wilder, P.E.

SunCam Course Number	326
Professional Development Hours	4.0
Date of Completion	June 6, 2020

This introductory course provides engineers with a foundational understanding of railroad systems, covering key components like subgrade, ballast, ties, and turnouts, enabling effective client discussions and project navigation without delving into detailed design.
