CERTIFICATE

of On-Line Course Completion

Jaime Garcia

Has successfully completed a SunCam Continuing Education Course:

HVAC Design

Industrial Ventilation

By R. Michael Ballew, P.E.

SunCam Course Number	100
Professional Development Hours	1.0
Date of Completion	June 14, 2020

This course provides mechanical engineers with a comprehensive understanding of industrial ventilation design, covering machine rooms, battery rooms, and warehouse spaces. It includes code requirements, ventilation rate calculations, heating systems, and cost-effective design templates, along with Excel spreadsheets for practical application.
